

Practice Express®

Where Experience and Technology Meet

SOLUTION: A robust, full-functioned, benefit-rich software package written specifically for the medical practice office yet still affordably priced.

Silver and Gold Levels

- Multiple product configurations with integrated migration path.
- Fully scalable.
- Electronic medical records interface
- Multiple mode software support system.
- Affordable pricing.
- Windows graphical user interface.

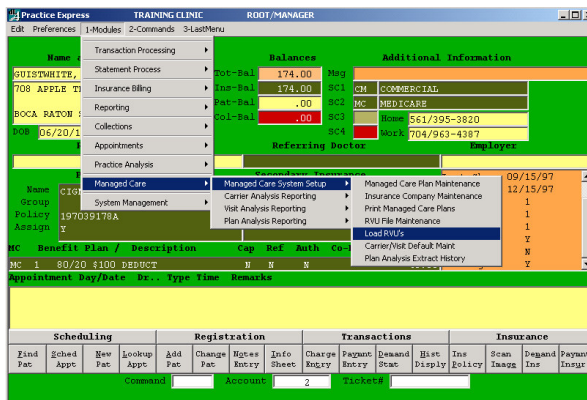

No, that's not a definition of the impossible dream; that's a description of Practice Express®, developed by CCA MEDICAL, a recognized leader in medical practice software solutions.

Practice Express® is licensed in configurations to allow a practice to size their system to meet their immediate needs. High returns on investment are maintained since there is no reason to license software functions that may not be used in the short term. Because all functions contained in the two levels of Practice Express® are fully integrated, the practice can provide for future growth by seamlessly adding to both size and function.

Practice Express
Silver

The building block of Practice Express® – contains all critical functionality necessary for the operation of a medical practice office.

- ◆ Appointments
- ◆ Accounts Receivable
- ◆ Insurance Processing
